

David Ryan Glauber

Excerpts of Student Feedback

“I never really liked history and was nervous to take this class. Now I am a believer and a lover of history thanks to you... You even got me to read newspapers, watch the news and read news on the internet. Seriously, you did that!”

“You have exceeded any of my former instructors in how much information you give to me and how I can use it to improve my work. You [are] a great instructor and I wish you all the best.”

“You are very helpful and very easy to work with. In addition, I truly appreciated all of the posts with extra information that you made during our discussion weeks. Your posts added a lot to the discussion and I learned a lot from them.

“Mr. Glauber, I am thoroughly enjoying your comments. I would love to be in a lecture hall and listen to you talk. Your comments are very enlightening and I am learning so much about this whole era from you. ”

“You were a great instructor and I hope they continue to use your services. If a student cannot learn from you then they cannot learn from anyone.”
